Build skills to

lead scalable, cost-effective, multi-modal
and secure cloud solutions

REVA
UNIVERSITY
Bengaluru, India

With the cloud, individuals and small businesses can snap
their fingers and instantly set up enterprise-class services.

- Roy Stephan, Amazon Web Services

Foreword

Cloud has become so business-critical and ubiquitous in today's post-pandemic world for all organizations. Without cloud-based applications and services, organizations could not have managed their millions of workforces working from home. The business models have shifted from premises to cloud-based in a matter of weeks. Cloud has disrupted the conventional business models. Today, one can go global at scale and cheap, thanks to innovations in cloud technologies.

One of the key business strategies today is to build sustainable cloud computing and technologies which is energy-efficient, flexible and perform at scale. Going Cloud is not a choice for business leaders and professionals anymore; it is a bare minimum

requirement. Today, cloud technologies power all the business functions, processes, products, and projects of an organization. To build a successful career and lead this cloud revolution, it is important to get skilled in cloud technologies and architecture.

A bespoke M.Sc. program in Cloud Architecture and Security designed by industry thought leaders, delivered by REVA Academy for Corporate Excellence, REVA University can help you fast track your journey to the top echelons of organizations of tomorrow.

Five Reasons to Choose

Cloud Architecture and Security program

Gain deep skills with access to **virtual labs, cloud platforms, and global certifications** among a globally valid **Master's program in cloud architecture & Security** and change your future forever.

Cloud computing is the third wave of the digital revolution.
- Lowell McAdam, Verizon

01

Develop Full-Stack skills on Cloud Technologies

This unique program will help the learner design end to end cloud solutions and set up multimodal cloud platforms which are scalable and secure and cost effective. Access to multi-cloud environment from AWS to Microsoft, where one can experiment and innovate to build hands-on learning.

02

Designed for creating Enterprise leaders with futuristic Skills

This program is designed to build enterprise leaders who can empathize with the organizations requirements and design solutions which are optimized in cost, scale and adaptability

03

One-on-one lateral placement and career guidance support and assistance

A vast network of 50 plus industry mentors, 100 plus marquee organizations as placement partners, 1000 plus strong alumni network ensures that all our learners successfully transition into analytics managers during the program. The lateral placement process is uniquely designed with one-on-one career guidance and mentoring sessions, resume building support, exceptional training and mock interviews, helping each of our learners to be placed nationally and internationally with a 50 to 200% increase in salary on average.

04

5+ industry certification along with globally valid master's program

A well-balanced program curriculum with global cloud certifications from AWS and Microsoft ensures that the learner builds deep technical and functional expertise in designing cloud solutions and applications in all the enterprise functions based on the business challenges, thus making a solid resume with hands-on skills.

05

Deep hand-on industry-grade projects with research and innovation as the focus

At the end of this two-year master's program, the learners will get to work on 10 plus mini-projects, full-scale projects and research publication(s). These projects will be mentored by industry thought leaders and hence career transformational.

Careers in Cloud Technologies

Whether it is storage, processing power, or containerised applications spun up on demand, the cloud has revolutionised the software industry.

- Prasun Kumar, CommercelQ

Become a **Cloud Solution Architect**

with techno-functional and analytical skills

REVA
UNIVERSITY
Bengaluru, India

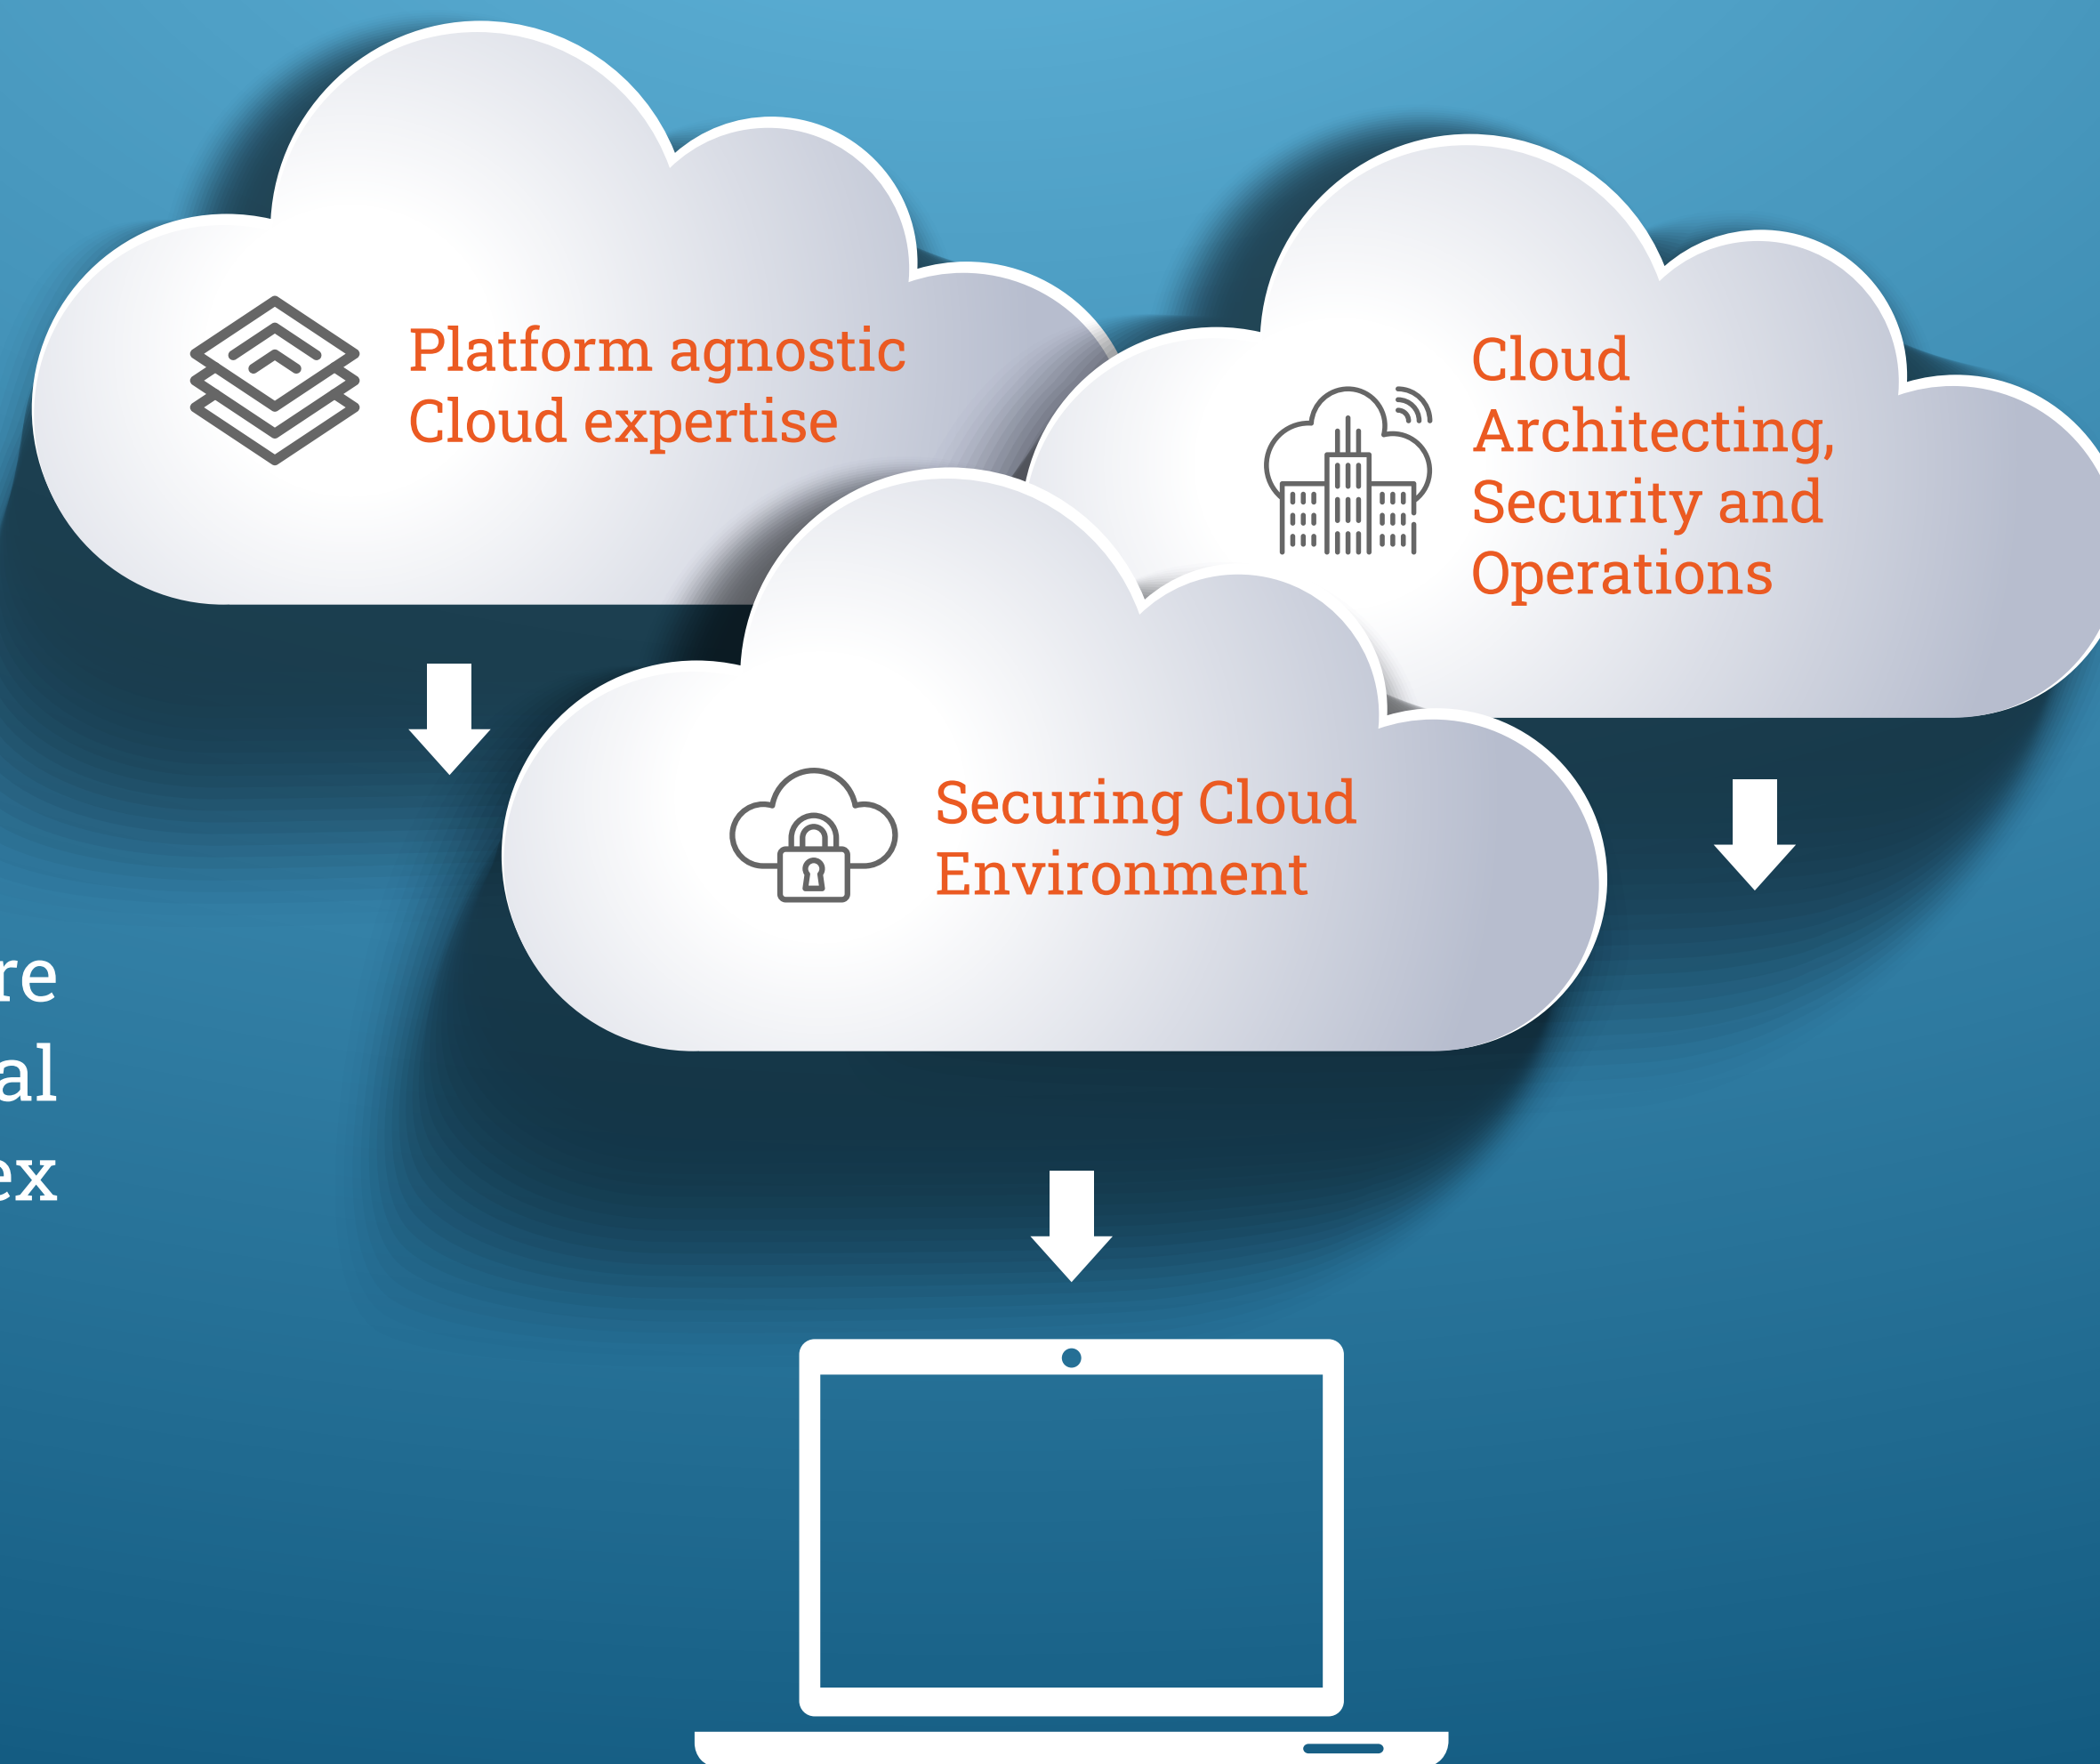

The cloud has become the next-generation supercomputer, and the smartphone has provided the revolution to spur its use.
- Jerry Yang, founder of Yahoo!

The M.Sc. in Cloud Architecture and Security Program

participants in the two years of their tenure and beyond develop deep Tri-dimensional frameworks to help them solve complex cloud challenges.

Program Objectives

and Industry-ready Outcomes

The program in **Cloud Architecture & Security** in association with various **industry** and **academic** partners is designed and curated exclusively for working professionals.

“ Cloud is the digital wonderland of Internet of Things, powered by Artificial Intelligence and Big Data.
- Enamul Haque, Capgemini ”

Program Objectives

The 24-month master's program in Cloud Architecture and Security in association with various industry and academic partners is designed and curated exclusively for working professionals.

Learning Outcomes

Upon the completion of the program, the participants will develop deep expertise on:

01 Gain expertise on networking, virtualization, identity management, business continuity, disaster recovery, compliance, & data governance in cloud environment.

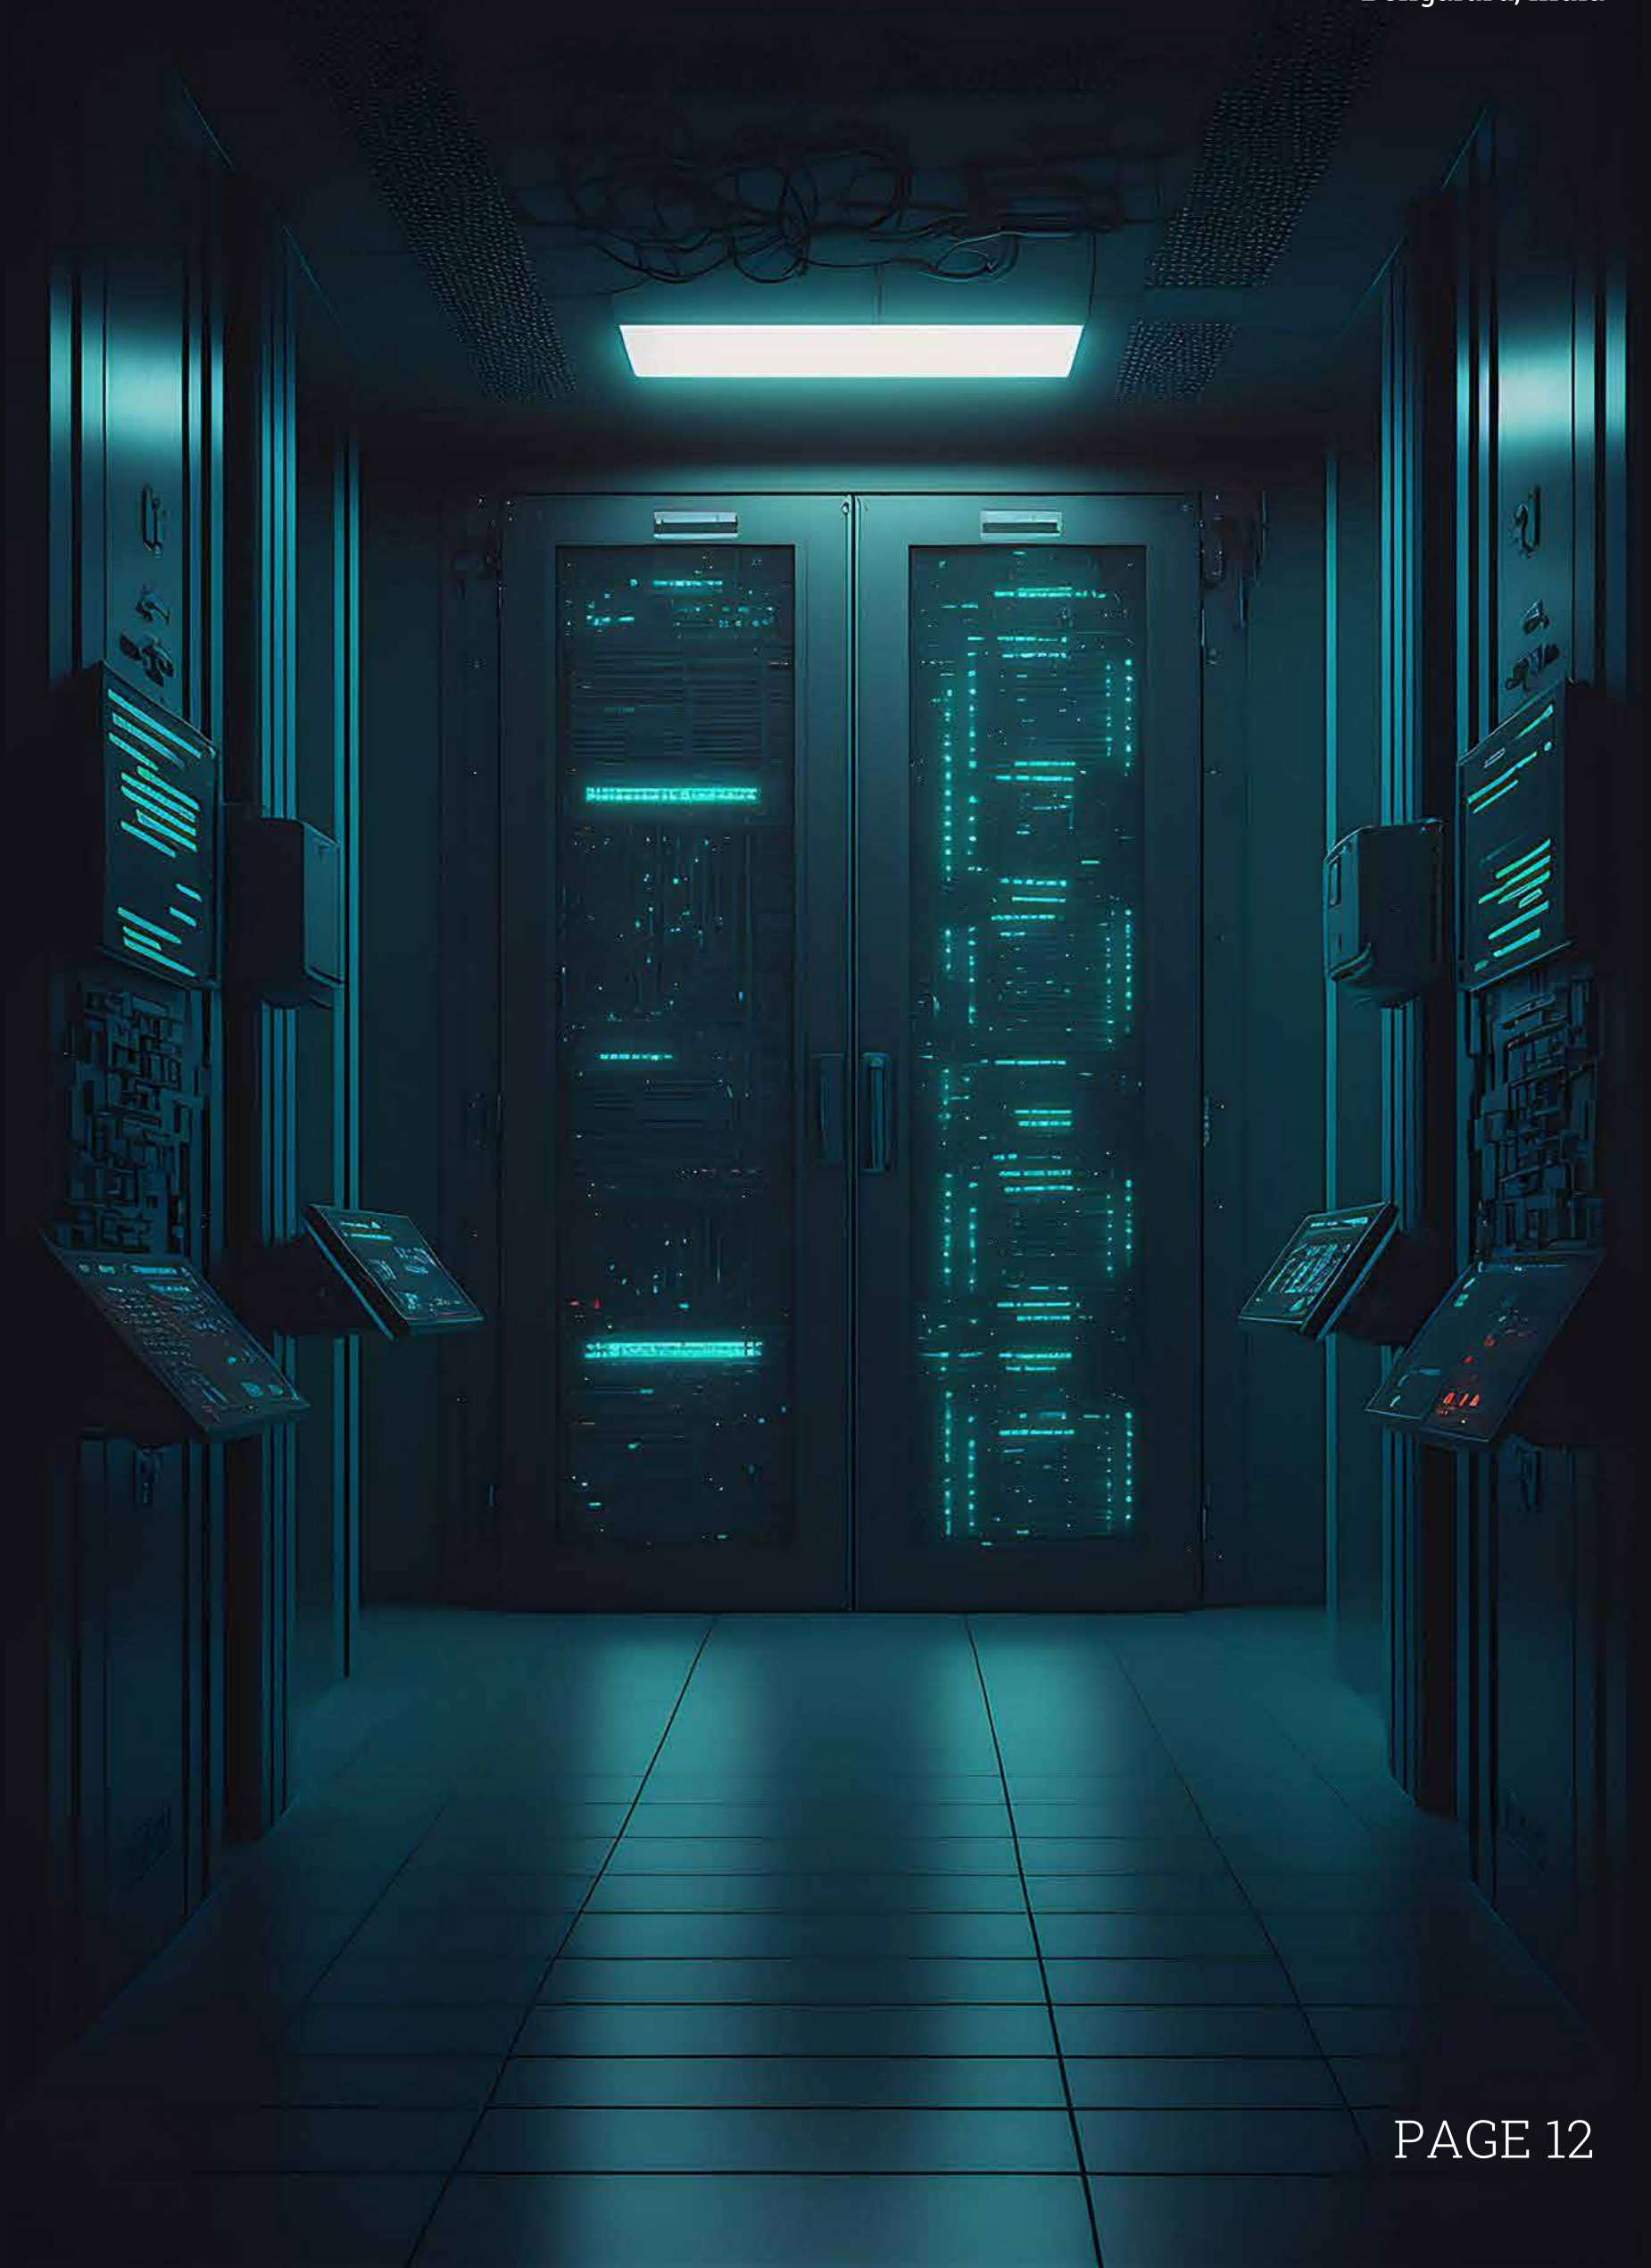

02 Learn to design platform agnostic cloud architecture suitable to the business context with optimal resource allocation

03 Deploy cloud applications which are scalable and secure

04 Design and implement cloud strategies for collaboration, security, compliance, continuous integration, testing, delivery, monitoring, and feedback systems.

05 Lead teams and provide cloud migration and maintenance services for organizations.

The program objective is to
Design and build
cutting-edge cloud
capabilities and solutions.

Bespoke Program Structure

REVA
UNIVERSITY
Bengaluru, India

The “Cloud Computing Rings” represent: Performance, Resilience, Data Sovereignty, Interoperability and Reversibility of a successfully integrated Cloud System.

- Ludmila Morozova, Bussva Capital Technology University

84 Credits | 4 Semester | 15 Modules | 10+ mini-projects | 1 Capstone Project with Industry Mentorship | 5 Global Certifications | 1 Research Paper Publication

Semester 01

- 1. Network and Infrastructure Fundamentals for Cloud (5)
- 2. OS and Web Application Security (5)
- 3. Virtualisation and Cloud Computing (4)
- 4. Fundamentals of Cloud (AZ900) (4)
- 5. Cloud Administrator (AZ104) (5)

Semester 02

- 6. Security Operations Analyst (SC-200) (5)
- 7. Private Cloud Architecture with OpenStack (5)
- 8. Cloud Operations (AWS Certified SysOps Administrator – Associate) (5)
- 9. Cloud Solutions Architecting (AWS Solution Architect – Associate Certification) (5)
- 10. Containers and Orchestration System (5)

Semester 03

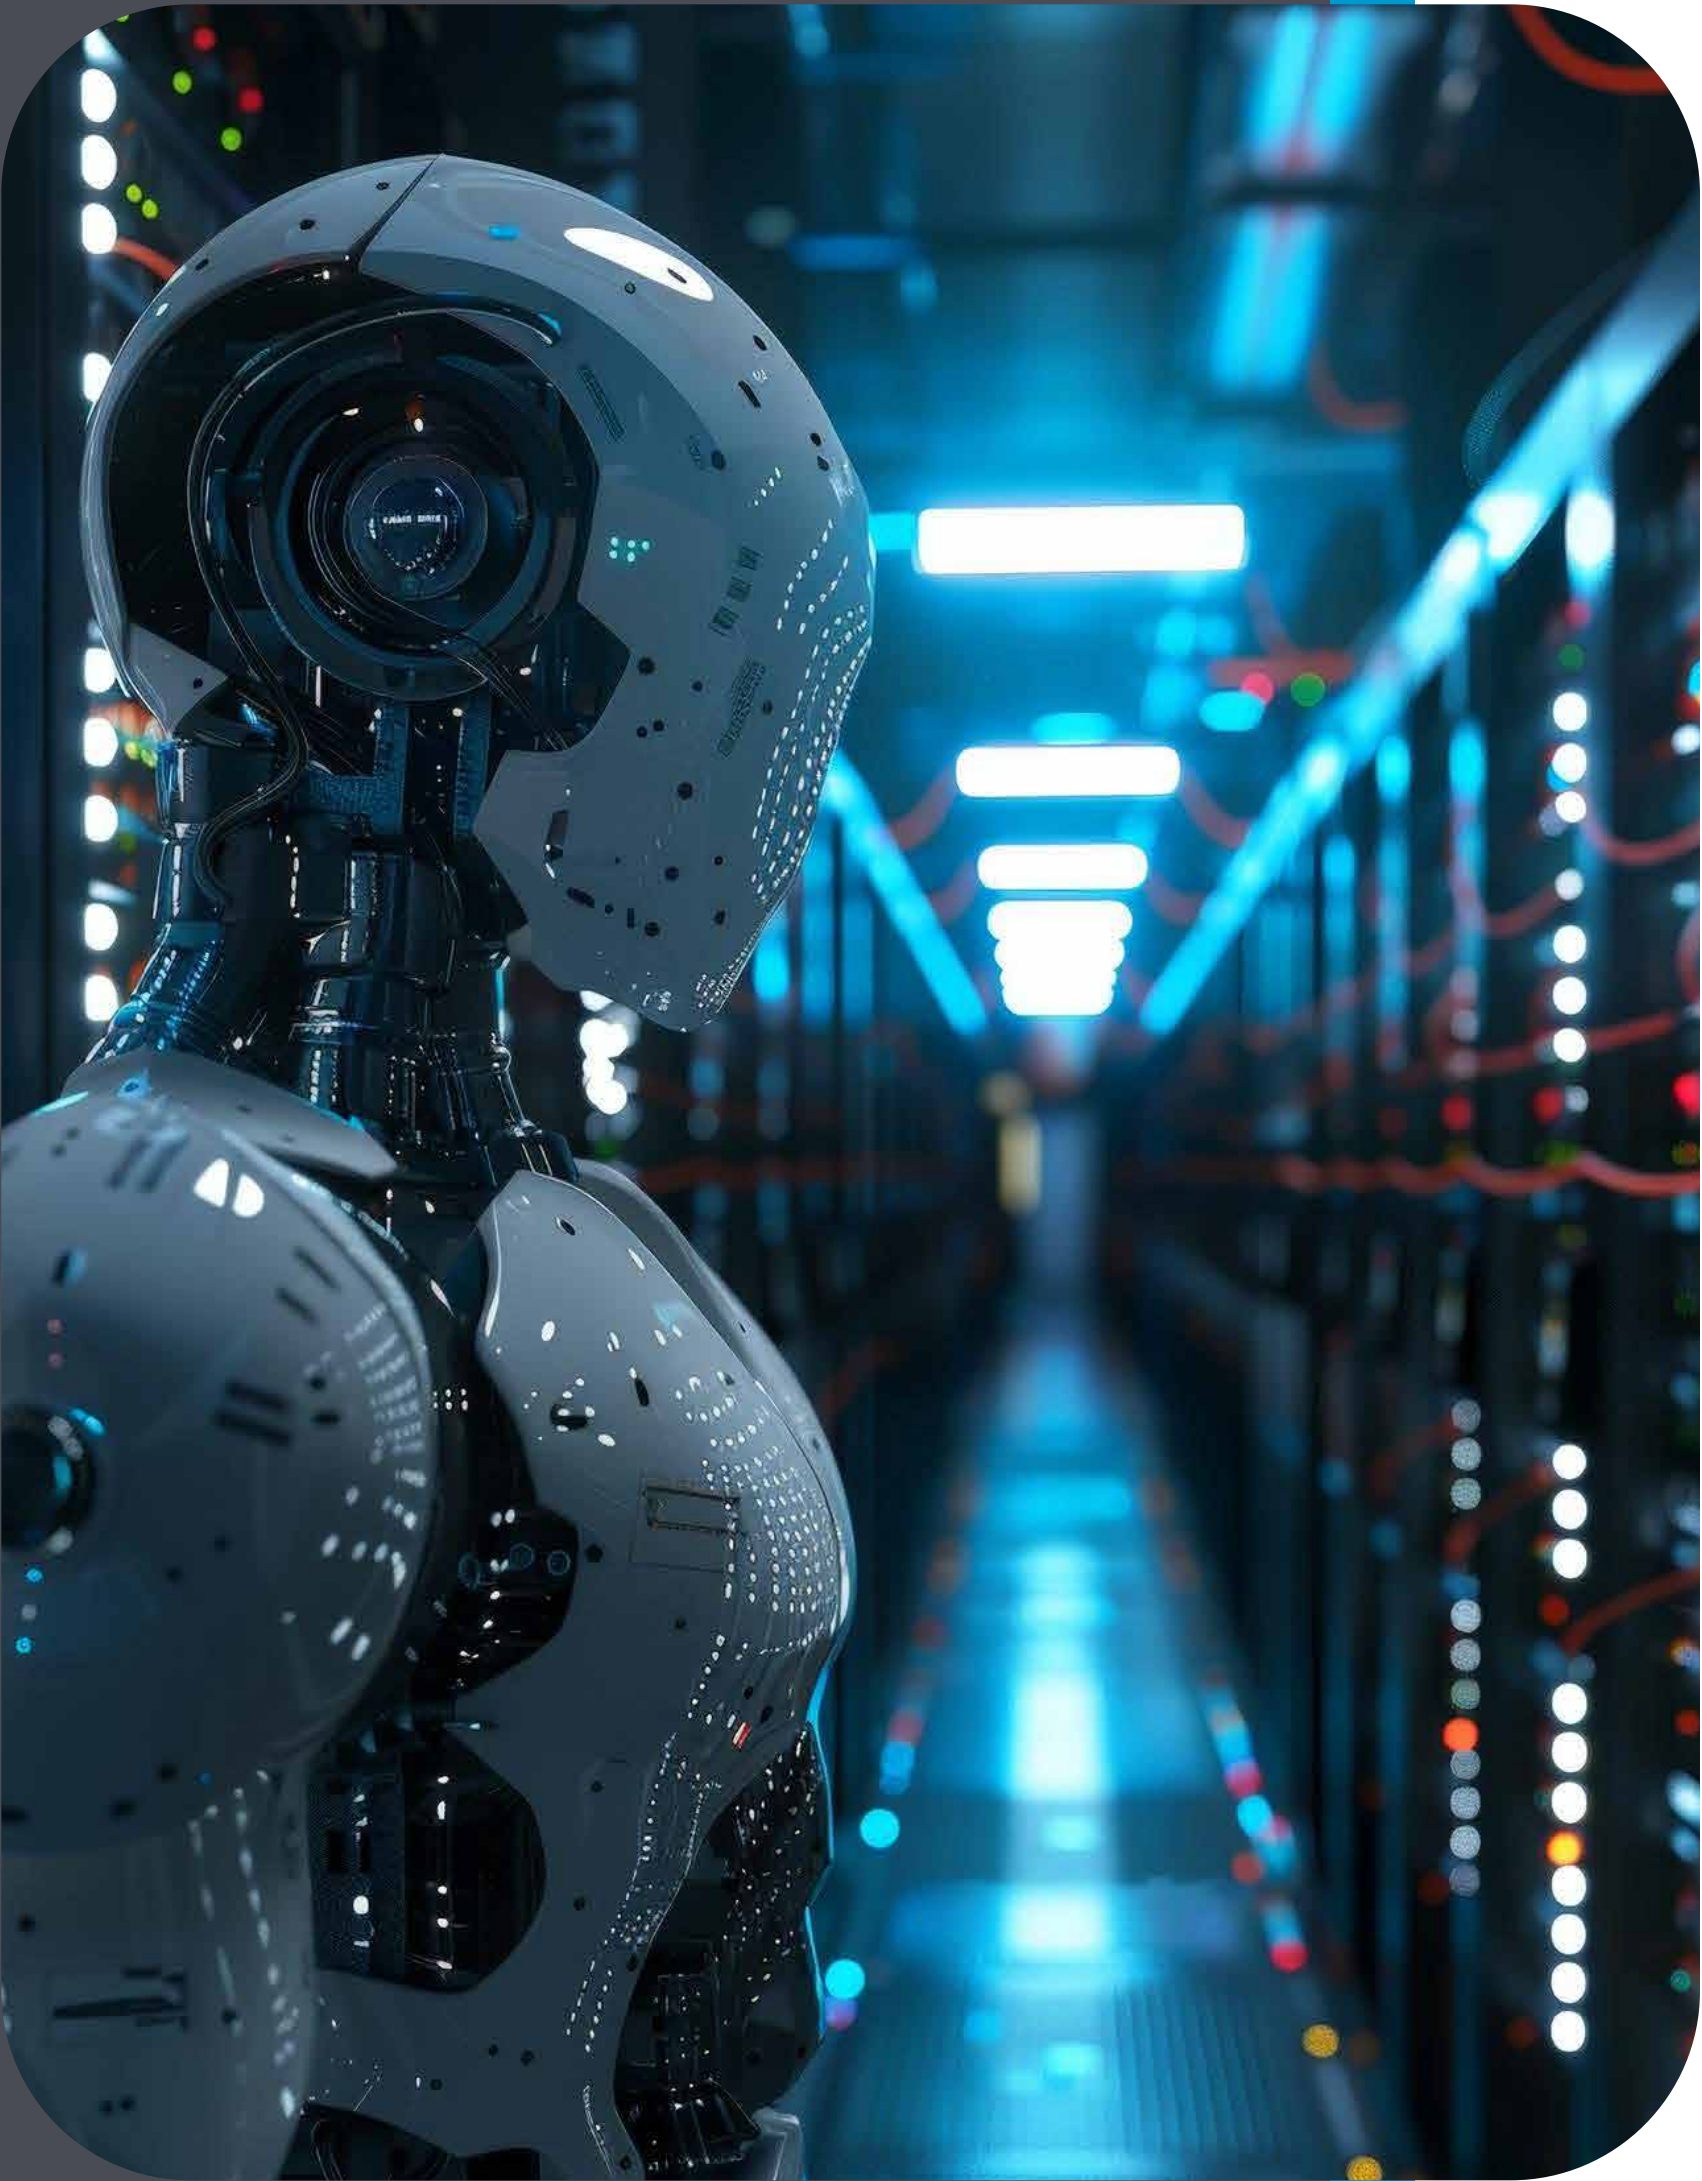

- 11. DevSecOps and Secure SDLC (4)
- 12. Cloud Governance, Risk and Compliance & Privacy (4)
- 13. Hybrid Cloud Deployment and Migration (4)

Semester 04

- 14. Capstone Project I (12)
- 15. Capstone Project II – Publication (12)

(n) Number of Credits

*Candidate can enrol for a one year program and exit at the end of second semester (one year) with a PG Diploma in Cloud Architecture and Security. Those who are enrolling for MSc, this option is not available.

Future-Ready

Program Curriculum

The main element you cannot delegate to your cloud service provider is your responsibility for security, compliance and customer trust.

- Stephane Nappo, Groupe SEB

Semester 1

Building Strong Cloud Foundations

In the first semester, learners develop a solid grounding in **network and infrastructure fundamentals for cloud**, along with **operating system and web application security** to ensure resilient environments. They explore **virtualization and cloud computing**, gain an introduction to **cloud fundamentals (AZ-900)**, and advance to **cloud administration (AZ-104)** with hands-on labs.

By the end of Semester I, students will be able to **design, configure, and secure cloud environments**, while earning globally recognized certifications (AZ-900 & AZ-104) that strengthen their professional credentials.

Semester 2

Mastering Cloud Security & Operations

In Semester II, learners advance into **cloud security and operations**, starting with **Security Operations Analyst (SC-200)** to build SOC skills. They explore **private cloud architecture with OpenStack**, gain hands-on expertise in **AWS SysOps Administration** and **AWS Solutions Architect (Associate)** certifications, and dive into **containers and orchestration systems** to manage modern cloud-native environments.

By the end of Semester II, students will be able to **design, secure, and operate enterprise-scale multi-cloud infrastructures**, while earning industry-recognized certifications that directly boost employability.

Semester 3

Governance, Security, and Cloud Transformation

Semester III emphasizes secure design and governance in modern cloud ecosystems. Learners build expertise in **DevSecOps and Secure SDLC** to integrate security across the development lifecycle, master **cloud governance, risk, compliance, and privacy frameworks**, and gain practical skills in **hybrid cloud deployment and migration** strategies.

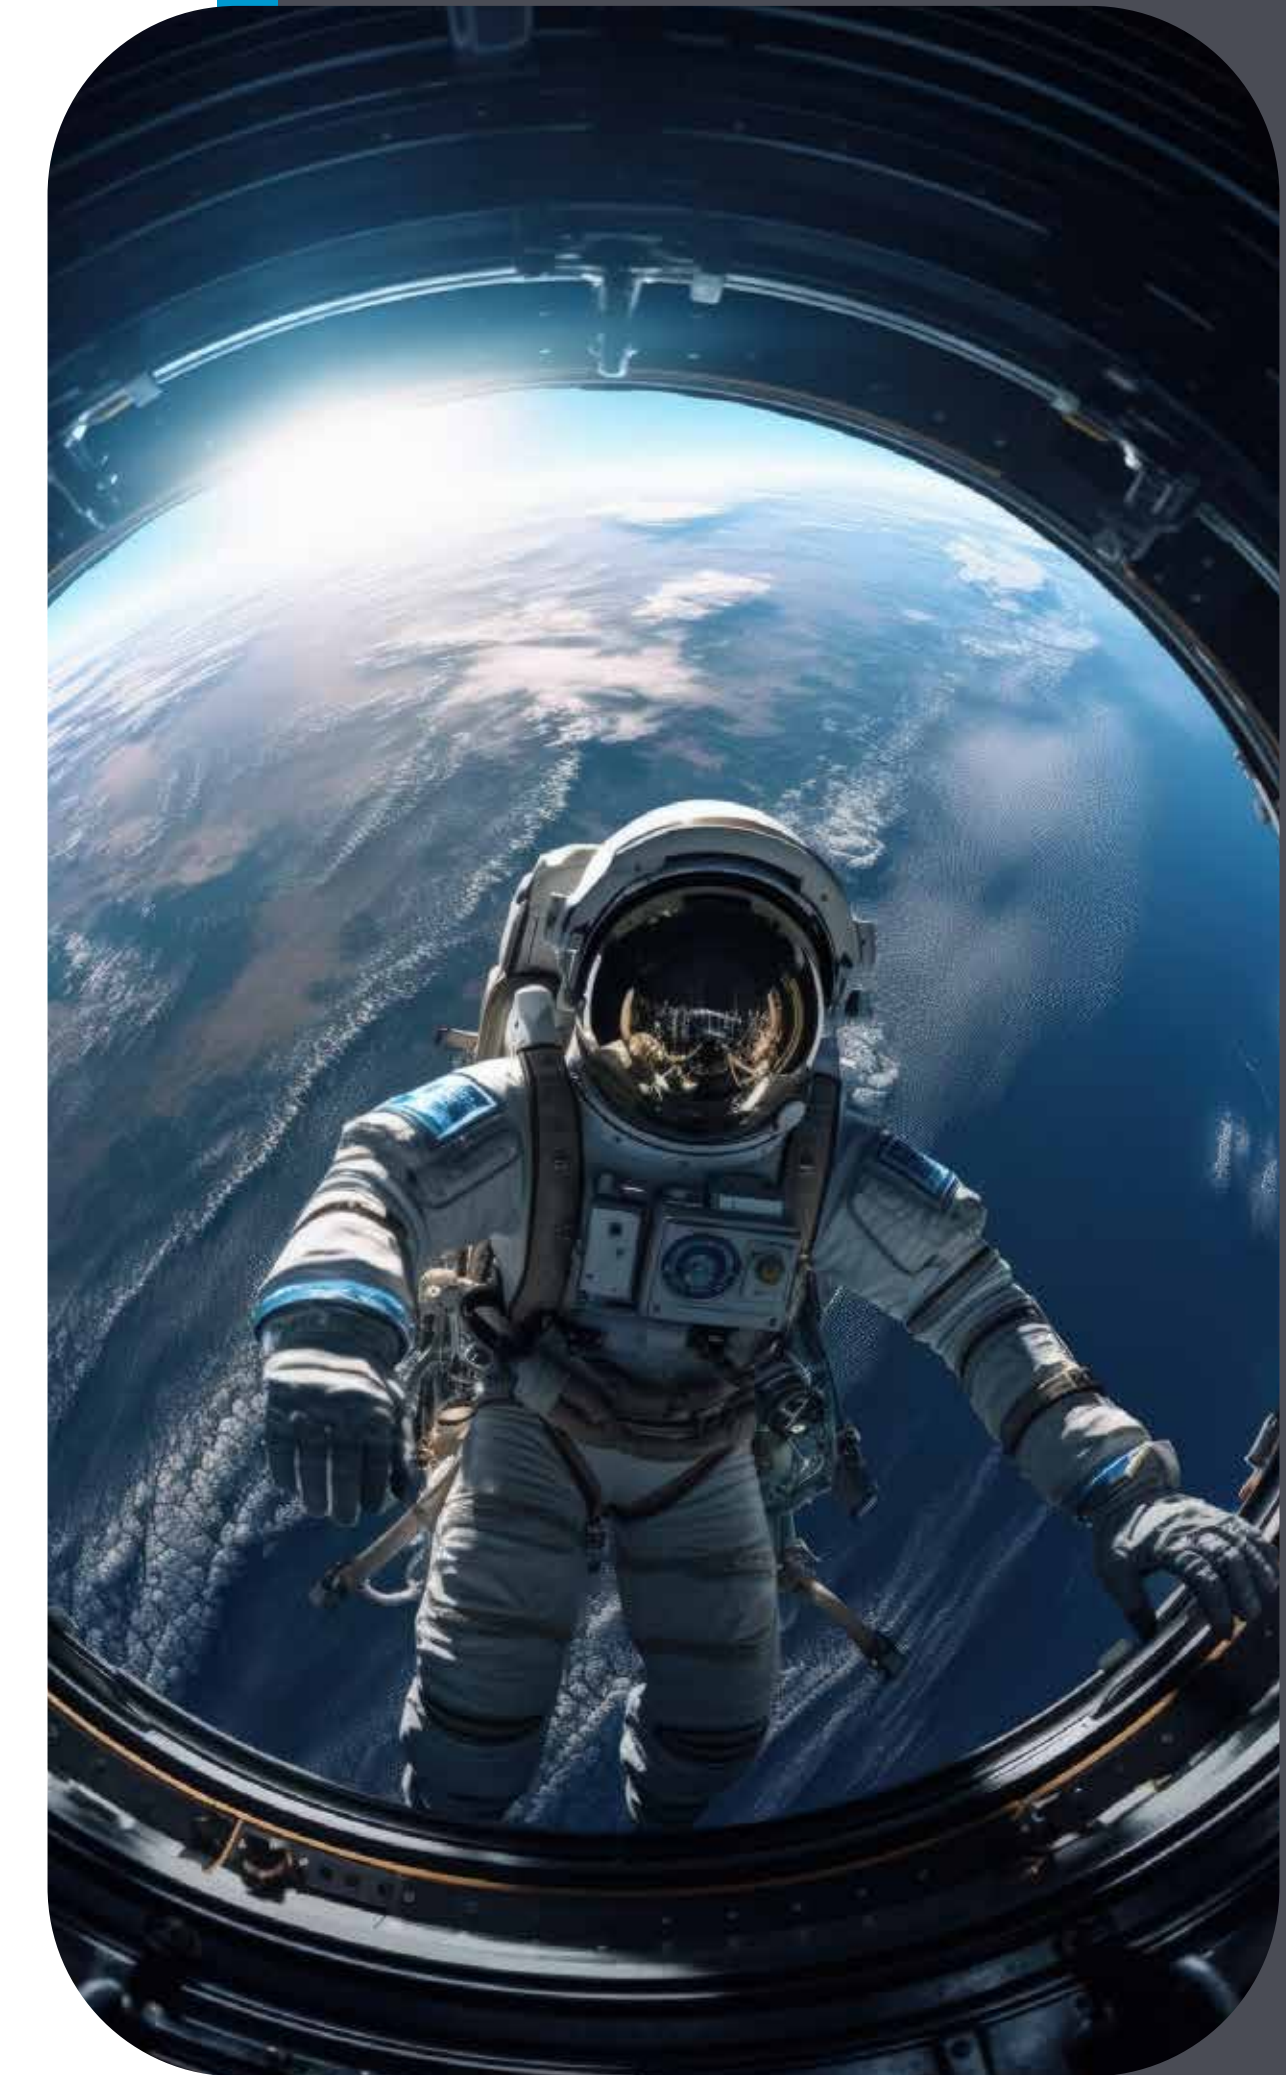

By the end of this semester, students will be able to implement secure development practices, ensure compliance in cloud environments, and lead complex hybrid cloud migrations for enterprises.

Semester 4

From Capstone to Career Launch

The final semester focuses on applying knowledge to solve **real-world challenges and contributing to research**. Through Capstone Project I, learners work on an **industry-driven cloud architecture or security problem, developing solutions with measurable impact**. Capstone Project II **emphasises research and publication, where learners extend their work into a paper suitable for reputed Scopus-indexed or Q-rated journals and conferences**.

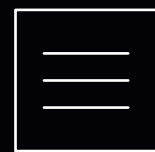

By the end of this semester, graduates will have a strong industry project portfolio and a research publication, positioning them for leadership roles in cloud security, architecture, and enterprise technology.

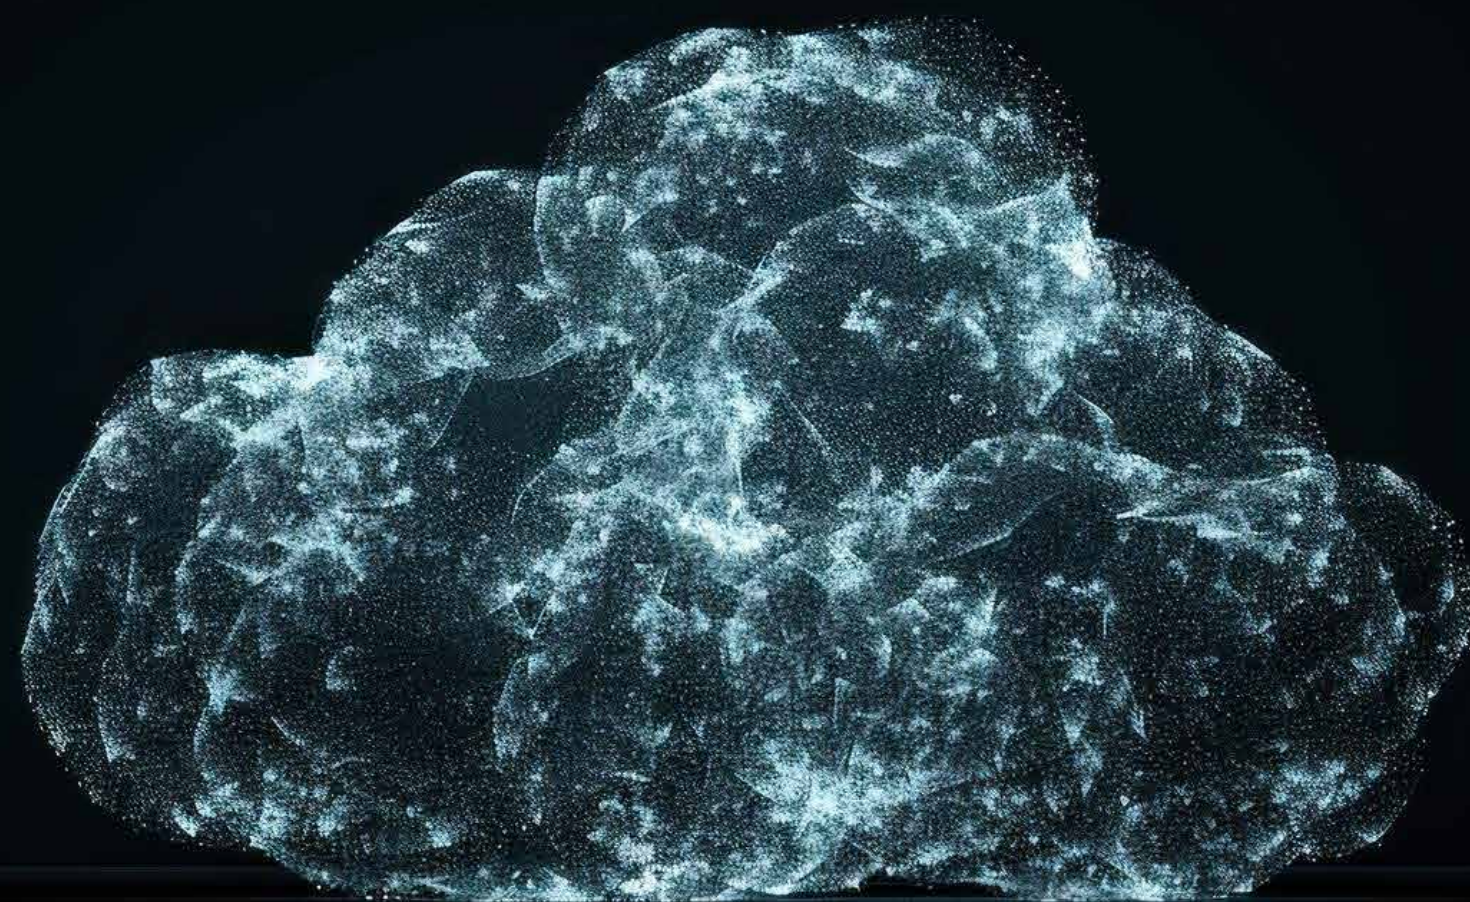

Partners and Global Certifications

“ The cloud is for everyone. The cloud is a democracy.
- Marc Benioff, CEO – Salesforce.com ”

Various globally renowned marquee organizations power this program including **AWS, Microsoft and CloudxLabs** and others. Participants will get unlimited access to our educational partners' ecosystem, including the Cloud labs access, Course Materials, Partners' LMS, placement services, mentoring sessions and more.

AWS Academy partnership provides our participants' course materials to pursue industry-recognized certifications and in-demand analytics/AI/ML Jobs. AWS curriculum helps the learners stay at the forefront of AWS Cloud innovations. The learners will get access to the Cloud environment to build and deploy ML/AI solutions.

Microsoft Azure is the leading cloud platform and productivity company for the mobile-first, cloud-first world, and its mission is to empower every person and every organization on the planet to achieve more. Our participants will get access to their 100's, of course, certification opportunities, placement services through this partnership. Cloud labs with credits will be provided to practice the real-time deployment of projects.

Board of Studies Members and Key Mentors

REVA
UNIVERSITY
Bengaluru, India

Cloud computing is empowering; companies leveraging cloud will be able to innovate cheaper and faster.

Continuous Evaluation and Certification

Everything is going to be connected to cloud and data. All of this will be mediated by software.
- Satya Nadella, Microsoft

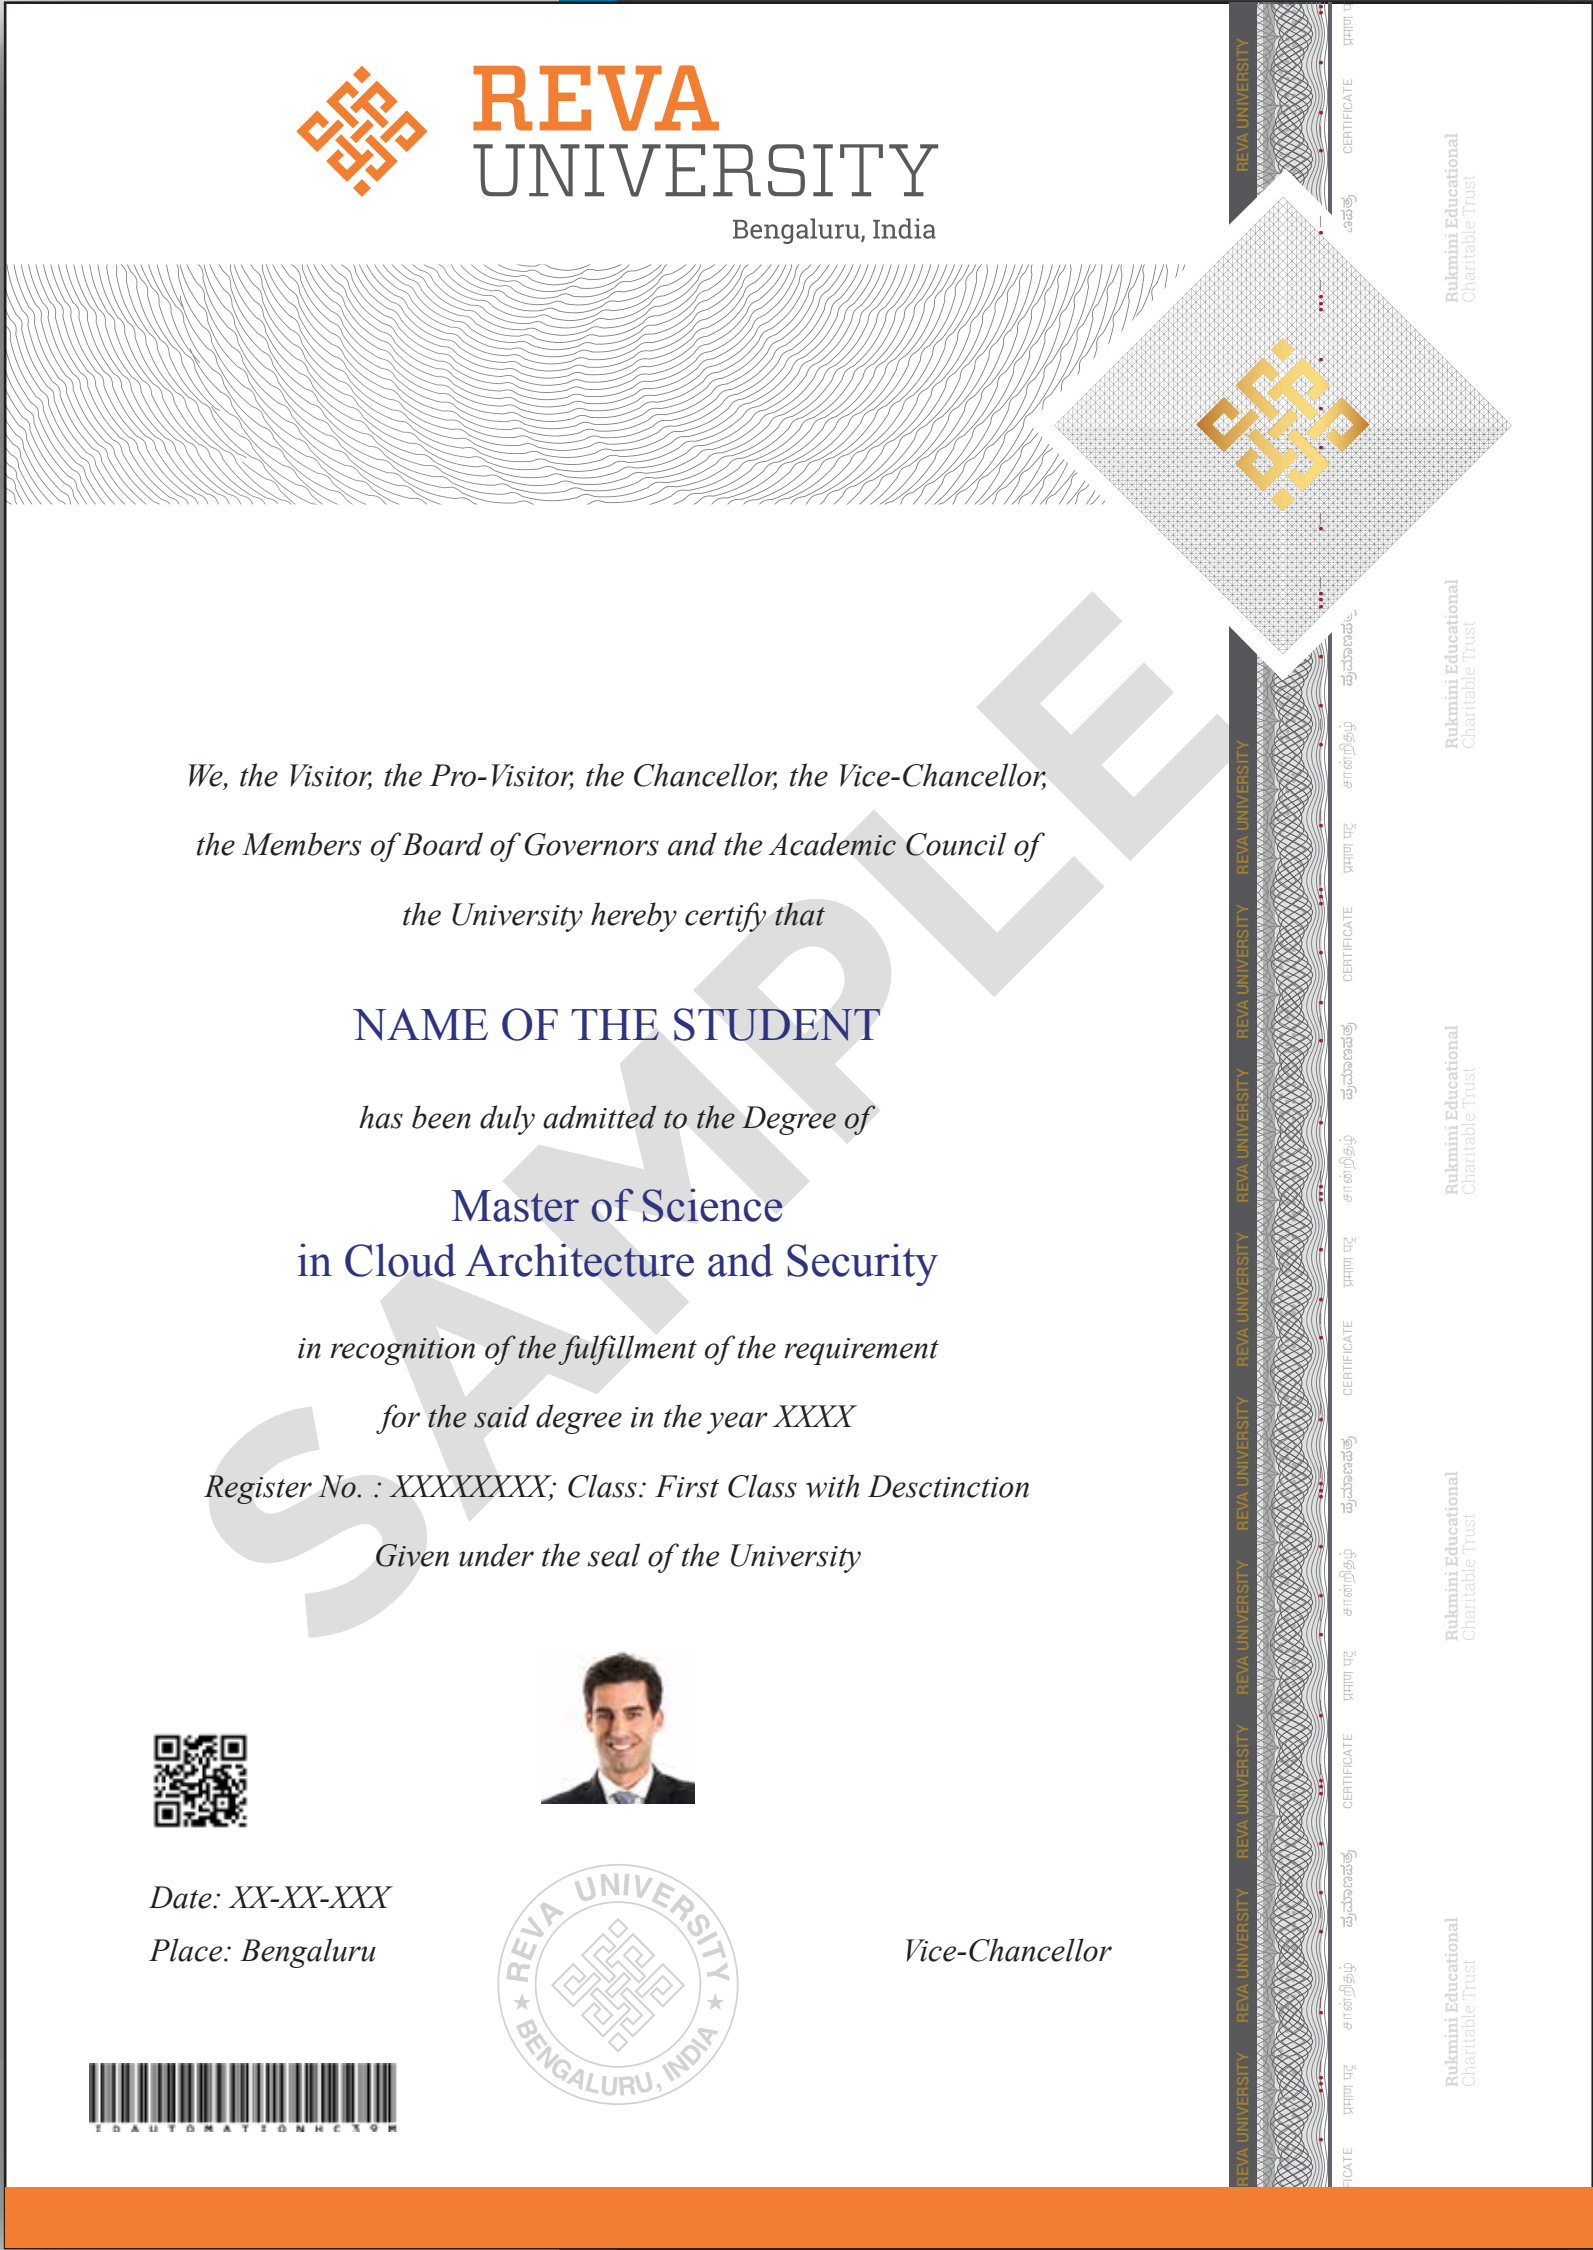

Continuous Evaluation

This is a globally accredited program to make the participants truly global citizens. At par with international standards and to provide opportunities for global mobility to our participants, we follow an outcome-based education system (OBE). Experiential learning and project-based pedagogy have been employed in the design and delivery of the program.

Never
Stop
Learning!

The objective of module assessment and evaluation is to objectively assess the learners of the program on their ability to apply the Cybersecurity concepts and skills in various domains and verticals through a continuous evaluation framework throughout the program. Detailed regulations on earning the credits and GPA's will be shared during the program.

Participants' Profiles

Diversity is a catalyst to learning

Cloud computing is the third wave of the digital revolution.

- Lowell McAdam, Verizon

Participants' Profiles

RACE, REVA University provides an excellent opportunity to learn from a diverse group of highly talented and committed peers. As a discerning candidate, one must always consider classroom diversity a critical factor in choosing an MSc program. At RACE, we believe in multi-disciplinary research and collaborations. You will interact with your cohorts and other program participants through various collaborative tools like MS-suit/LMS and other social groups. A diverse peer group with varied skills and career aspirations is a must to widen your network, bringing new opportunities. These peers might become your colleagues, clients or vendors in the future.

We believe in
multi-disciplinary
research and
collaborations.

Schedules and Support

Customized to suit working professionals

REVA
UNIVERSITY
Bengaluru, India

“ The cloud is one of the most extraordinary opportunities of our lifetime. If we're not investing now, we'll rue the day we didn't. ”
- Ruth Porat, Alphabet Inc.

Program Schedule

Participants will get access to seamless learning and support through multiple platforms. Since most of the services are cloud-based, the support is always available uninterrupted.

Learning Management System:

LMS is the one-stop destination for connecting to the program contents, video recordings of the classes, research repositories like IEEE, EBSCO and others, assignment submissions, connecting with mentors, etc.

The program office provides customized support in resume building, mock interviews, placements and career enhancement sessions, and more.

Our dedicated team of academicians, mentors and researchers will provide support on designing and writing technical reports, publishing in reputed journals and conferences, etc., various support sessions/webinars/special sessions will be held in addition to the regular session during evenings and weekends.

We conduct regular boot camps, workshops and hackathons to help our participants to implement cybersecurity projects or writing reports with hands-on support sessions.

Eligibility to Apply

Application Process and Program Fee

REVA
UNIVERSITY
Bengaluru, India

Our goal with the cloud is to make sure that our cloud and our cloud applications are available on every device in the world.

- Satya Nadella, Microsoft

Who Can Apply?

Candidates who aspire for a career transition to job roles such as Security Engineer, Security Analyst, Security Architect, Product and Application Security Expert, GRC professionals or CISO roles, etc., can apply to this one-of-a-kind 24-month M.Sc. program in Cloud Architecture and Security at RACE.

M.Sc.

Candidates must have a minimum of 50% marks (45% in case of SC/ST candidates) in

- BE/B.Tech in CSE / ECE/EEE/ISE/IT/TE or
- BCA/B.Sc. in IT/CS/ Electronics or
- B.Com/ BBA with Computer Applications or
- Any B.Tech/ BE Degree including M.Tech, Civil with a minimum of 50% marks in aggregate of any recognised university/institution.

Program Fee

1st Year	: INR 4.50 Lakhs
2nd Year	: INR 3.50 Lakhs

Easy EMI option for the payment of fee without hassle from our associated banks is available.

Selection Process

Selection is based on merit and interview. Candidates with 2-3 years of experience should appear for an entrance exam and subsequent interview.

How to Apply

- Visit race.reva.edu.in to apply for the program
- Fill in the details of the Registration Form and Register
- Pay Application Fee of INR 1,000 using preferred payment methods
- Fill in the application and submit

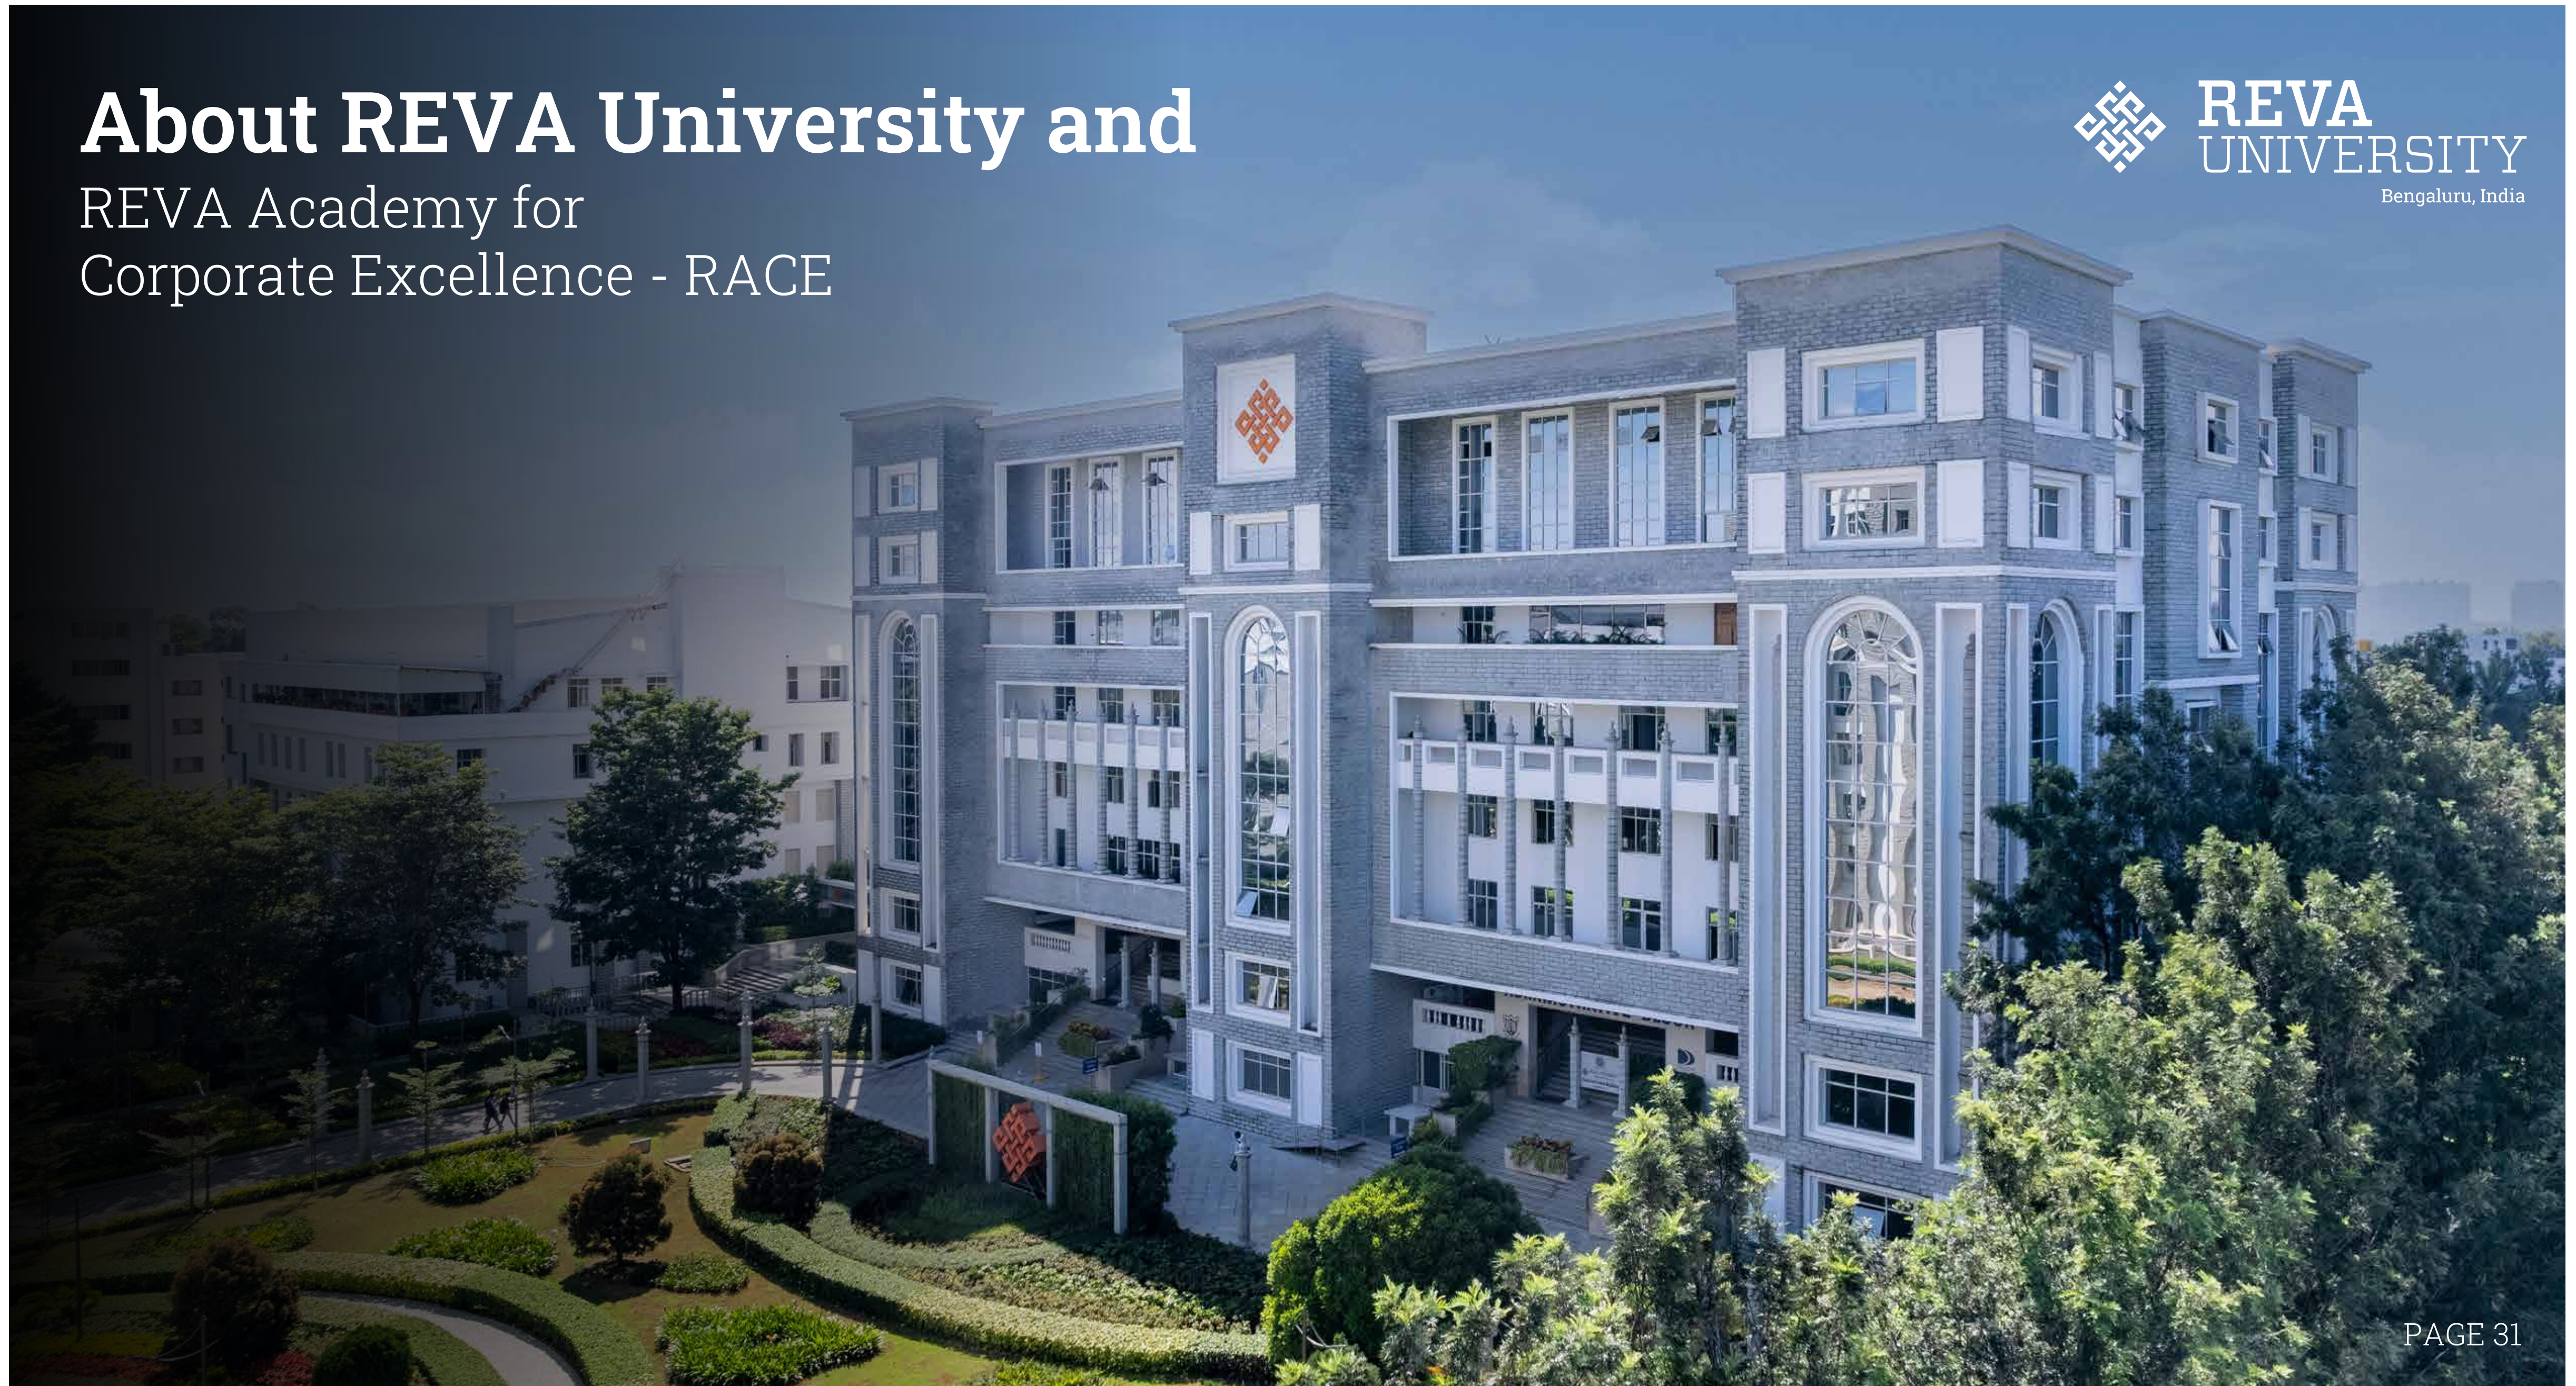

About REVA University and

REVA Academy for
Corporate Excellence - RACE

REVA
UNIVERSITY
Bengaluru, India

REVA University

REVA University has been established under the REVA University Act, 2012 with the vision to instil awareness, a zeal for higher learning and inquisitiveness in the minds of students through education. REVA University was conceptualised to bring change in the lives of students through the revisualisation of present academic scenario. The University breathes and practises an ideology that takes education to greater heights by motivating each learner. The Founder of REVA University believes in the adage 'Knowledge is Power'. Driven by this power of transforming lives, REVA succeeded in its educational endeavours by creating knowledge societies, imparting quality education and building responsible future generations.

REVA demonstrates a complete involvement in the field of education, which is complemented and enhanced by its verdant surroundings. The University retains a colossal landscape blanketed over 45+ acres of land, which is a standing testimony to inspire learners and smooth exchange of ideas. The University prides itself in contributing to the holistic development of every student.

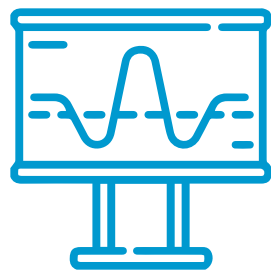

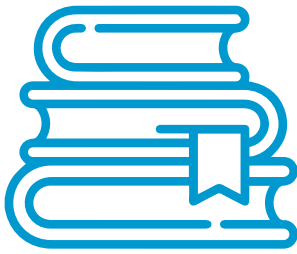

Currently, the REVA University offers 33 undergraduate programs, 23 full-time PG programs, 2 part-time PG programs in Engineering and Technology, Science, Commerce and Management, Architecture, Law and Humanities in addition to research degrees leading to M.Phil. and Ph.D. in different disciplines.

REVA Academy for Corporate Excellence - RACE

REVA Academy for Corporate Excellence (RACE) aims to develop visionary enterprise leaders for corporates through progressive and integrated learning capabilities. RACE offers best in class, specialized, techno-functional and interdisciplinary programs designed to suit the needs of working professionals. The pedagogy of each program incorporates social and experiential learning to build transformative proficiencies in every participant.

Each of the programs is planned, designed and delivered by renowned corporate leaders and trainers and combines the latest tools, technologies and skill sets that are in sync with the futuristic demands of the industry. The programs follow a blended mode with lab-based training and 24/7 online support with a learning management system with certifications from REVA University and several industry partners.
