Creating Enterprise-Leaders.

REVA Academy for Corporate Excellence - RACE

RACE, under the flagship of REVA University, offers a wide range of techno-functional and custom-made programs in emerging technologies for fast-rising executives and organizations. The AICTE/UGC approved programs are custom-designed to suit the needs of working professionals with industry experience who are keen to make a career transition. RACE also offers short-term and customized programs to organizations.

REVA Academy for Corporate Excellence has set higher benchmarks in technical education / corporate training to bring the best learning experience to the participants. RACE stands out from the crowd with its

distinctive training methodologies and learning culture. The hands-on practical sessions offer simulation-based learning delivered by trainers with decades of industry experience.

We have trained 1000 plus mid and senior executives representing 100 plus marquee organizations with an average of 10 plus years of experience to make a transition in their careers in emerging technologies.

Creating Enterprise Leaders

Resilient organizations are built by robust teams who can learn, unlearn and relearn skills of tomorrow. Upskilling oneself has become inevitable to sustain and grow to manage and lead these changing times. The individual and teams must be able to execute with speed by keeping in mind the changing customer demands, disruptive business models and emerging technologies. All leading organizations today invest on people, technology and processes to bring productivity, profitability and prosperity to the organization. At REVA Academy for Corporate Excellence, REVA University, we have created a thriving learning environment and ecosystem to help fast-rising executives and organizations to upskill and experiment. Our services go beyond executive programs to real-time projects and consulting.
